# ABOUT US

FORTEX

# ABOUT US

Fortex is a private family business and modern clothing company, established manufacturer of high quality shirts.

Fortex is a brand on the Macedonian market since 1999 that offers you a unique opportunity to design a 3D shirt of your dreams, designed according to your wishes and tailored according to your measurements, made according to the MTM system, i.e. made-to-measure, which means made-to-measure . Fortex produces ready-made men's and women's shirts. This is the only brand in Macedonia that has individual and corporate uniform production in terms of satisfying your wishes. Our products are made of high quality materials originating from the Netherlands, Italy, Germany, Denmark, Australia...

It is specific that the materials are usually not repeated and are always in a limited amount of stock.

Production is based on high quality products with defined standards and quality control.

**BIG SIZE**

**FABRIC** 65% COTTON  
35% POLYESTER

120gr x M<sup>2</sup>

EASY IRON

A large, abstract graphic element on the right side of the image. It consists of several overlapping, curved shapes in two shades of teal (darker and lighter) and black. The shapes are arranged to form a stylized, leaf-like or fan-like pattern.

# FITS MEN'S

Each FORTEX item has been designed to have a fit and features specific for its use, also considering promotional and professional aspects, and the need to adapt to a large number of contexts.

The fit of an item depends on its material and design, and as regards measurements and the reference size, based on the difference in body measurement and the size of the item.

This difference varies from item to item but is based on three different types of fit.

## REGULAR FIT

The size table is based on a difference between body measurement and the size of the garment which allows for ease of movement, making items practical and comfortable to wear.

## CASUAL FIT

Items have been created and designed to meet the needs of people who want a garment with more of an image and casual effect, without forgoing comfort.

## CHOOSING A SIZE

After deciding on the fit and size, you should try on the product before buying, using and customizing it.

Production may result in a +/- 3% tolerance margin, compared to the size of the garment. When trying on cotton items, shrinkage should be taken into account, especially for the sleeves, as all items, when washed according to the instructions on the label, will naturally shrink by around 5%.

## SLIM FIT

Every single detail of the item is designed and developed, size by size, for a perfect fit.

# CERTIFICATES

Cotton remains essential in the textile industry, yet its sustainability challenges—like high water demand and pesticide use—are reshaping its production. To reduce environmental impact, sustainable practices such as organic farming, regenerative agriculture, and water-saving irrigation methods are increasingly adopted. These approaches aim to lower pollution, protect soil health, and support biodiversity, making cotton production less resource-intensive. Innovations like recycled cotton and more efficient processing techniques also contribute to a circular economy, promoting cotton's continued use with a reduced ecological footprint.
